

NAPIER CITY COUNCIL INTEGRATED TRADE WASTE AND WASTEWATER BYLAW

SUMMARY OF STATEMENT OF PROPOSAL MARCH 2022

This Summary is made for the purposes of sections 83 and 83AA of the Local Government Act 2002 (**LGA**) and summarises the information in Napier City Council's Statement of Proposal to make a new Integrated Trade Waste and Wastewater Bylaw. This Summary also explains how to access the full Statement of Proposal and provides details of the period during which the Council will accept submissions on the proposal.

Summary of the Statement of Proposal:

- Napier City's Wastewater Drainage Bylaw 2014 was revoked on 17 December 2021, and its existing Trade Waste Bylaw 2014 will be revoked under section 160A of the LGA in December 2022.
- The Council proposes to:
 - Introduce a new bylaw that regulates both wastewater and trade waste (**Integrated Trade Waste and Wastewater Bylaw**). It is intended that the Integrated Trade Waste and Wastewater Bylaw will provide a regulatory framework to effectively manage all wastewater (including trade waste) in Napier City.
 - Introduce an Administration Manual to accompany the Integrated Trade Waste and Wastewater Bylaw to provide material complementary to each of the matters covered by the bylaw by bringing together those aspects which are of a more administrative nature and which may need regular review and updating.
 - The Administration Manual includes an explanation of the Council's new Trade Waste Charging Model. The Charging Model is a new user-pays trade waste scheme that prescribes which charges for trade waste discharges are calculated over a certain threshold.
- A number of issues related to management of the public wastewater system were considered, and decisions made about which of these issues were most appropriately addressed through a bylaw. The full list of identified issues and the Council's proposed approach is shown in the Statement of Proposal.
